

Assembly instructions

Soccer goal „Quick-Net-Rail” Completely welded

Thank you very much for choosing a Sport-Thieme product!

Please read the instructions fully before you assemble the equipment, so you can enjoy the product and safety is guaranteed. We are happy to answer any questions you may have.

As this goal is completely welded only the net needs to be mounted at the goal (see point 2).

1. Scope of delivery

Please check the following content before assembly.

1x Completely welded goal

1x Accessories:

- 4 x plastic cap Ø 28mm

- 1 x assembly instruction

The net is not part of the delivery.

2. Assembly of the net

- a) At first fix net at crossbar, uprights, ground bar and ground tube. Press cord of the net into the C shaped holes of the net rail (see photo). Do not pull the net over the net hoops from the outside. Take care that it is freely suspended between the hoops.
- b) Now the tensioning cord can be tightened between the ring nuts which are provided at the net hoops.

3. Ground fixing

The ground bars/ground tube are equipped with boreholes of 25 mm which serve to fix the special anchoring systems for the goal. Different systems are available (see Sport-Thieme accessories). The anchoring system is not part of the delivery. The use of the goal without corresponding anchoring system is at your own risk. If you do not use any anchoring system close the boreholes with the supplied caps for safety reasons. Use a mallet if necessary.

4. Maintenance, safety and storage instructions

This goal is constructed only for soccer matches and not for other purposes. Check all screwed fastenings before use and repeat it from time to time.

It has to be protected against overturning at any time. Do not climb net or goal frame. It is not allowed to fix additional parts or extensions at the goal frame which may impair the safety of the goal (according to DIN EN 748).

To avoid damage and misuse goals have to be stored secured and in an upright position when not in use.

Only use water for cleaning the surfaces. Do not use alcohol or any aggressive chemicals!

Assembly instructions for Art.-Nr. 242 0934
