Operating/assembly instructions for beach volleyball posts

Thank you very much for choosing a **Sport-Thieme** product. We want to make sure that you can enjoy this product, so here is some important advice for your safety as well as for the use and maintenance of the equipment. Please read these instructions fully before you assemble and use the equipment:

1. <u>General</u>

The beach volleyball posts (product code 115 8032) are intended for setting the posts directly into the foundations using concrete or for use with a ground socket (151 5611).

The beach volleyball posts (product code 115 8061) are intended for use in ground sockets. The ground sockets are included.

The posts have a diameter of 83 mm and each come with two comb-shaped bars. The height of the net can be adjusted in increments using these bars by positioning the snap hook at the required height when the net line is slack and then tightening the net again.

The playing height for men (2.43 m) and for women (2.24 m) as well as many heights in-between can be set without detaching the net.

The adjustment range is approx. 50 cm.

All materials are either hot-dip galvanised or stainless steel and therefore weatherproof.

Sport-Thieme GmbH 38367 Grasleben / Germany Telephone: +49 (0)53 57/181 81 Fax: +49 (0)53 57/181 90

Included with product code 115 8061 are the covers for the ground sockets.

2. Operating and assembly instructions

The ground sockets for product code 115 8061 are set into the foundations using concrete. The foundations should be laid to the measurements in illustration 2. The foundations require a load-bearing ground underneath. Consider the setting time before erecting the posts.

For product code 115 8032, the post is directly and firmly set into the foundation using concrete. The ground sockets are inserted to a depth of approx. 35 cm. The foundation for the socket should be approx. 80x80x80 cm in natural ground and approx. 100x100x100 cm in backfilled, light ground.

Once you have set the beach volleyball posts (product code 115 8032) into the foundations or inserted the beach volleyball posts (product code 115 8061) into the sockets, you can attach the net to the eyelets. See product number 117 8324 for a matching beach volleyball net from our range.

After the game, the volleyball posts (product code 115 8061) can be easily removed by pulling them out of the sockets.

Close the sockets with the respective covers once the posts have been removed. The covers are intended to protect the sockets from any dirt. Net attachment see ill. 3

Ensure that there is no dirt in the ground sockets!

Caution: Do not overload or climb the equipment!

Maintenance and care instructions

Carry out a visual check at regular intervals. Due to our continuous quality control of the products, technical changes may occur which may lead to slight deviations in the instructions.

Check at regular intervals that the screw connections are tight. Check the equipment for possible damage and replace worn-out parts. Ensure the perfect condition of the ground socket.

We are happy to answer any questions you may have.
