

Instruction manual for the Sport-Thieme small pitch goal

Thank you very much for choosing a **Sport-Thieme** product. We want to make sure that you can enjoy this product, so here is some important advice for your safety as well as for the use and maintenance of the equipment.

Please read these instructions fully before you assemble and use the equipment:

III. 1: Sport-Thieme small pitch goal

Included

<u>Pos.</u>	<u>Description</u>
1	2 x side section
2	Cross iron
3	Telescopic bar (consisting of 2 sliding bars)
4	2 x post
5	Crossbar
6	Fixings (bolts, nuts, washers)

1. General

The Sport-Thieme 'Spezial' handball goal is a free-standing goal made from wood. Despite its foldable net brackets, the goal is very sturdy and stable. The posts and the crossbar are bolted onto a galvanised metal frame. The goal is foldable thanks to a telescopic bar that connects the net brackets.

2. Assembly instructions

- First, fix the two side sections ❶ to the two posts ❷ using the coach bolts M10 x 120, the washers $\varnothing=10.5$ and the cap nuts M10.
- Then, fix the crossbar ❸ to the cross iron ❹ using the same fixings as in 2.1.
- The connection of the two side sections ❶ and the cross iron ❹ is established through the flange. For this, you need two coach bolts M10 x 30, two washers $\varnothing=10.5$ and two nuts M10 for each side.
- Now, fix the telescopic bar ❺ to the top of the two side sections ❶. The bolts face downwards.

See ill. 2 for a better understanding!

Ill. 2: Sport-Thieme 'Spezial' handball goal assembly drawing

Ensure you place an additional washer between the side section ❶ and the thinner telescopic bar.

When folding out the brackets, pull until you hear the bolt in the telescopic bar lock into place.

Push the bolt to release and slide the telescopic bars together until they almost touch the crossbar.

Caution: Do not overload or climb the equipment!

Maintenance and care instructions

Instructions:

Carry out a visual check at regular intervals. Due to our continuous quality control of the products, technical changes may occur which may lead to slight deviations in the instructions. Check at regular intervals that the screw connections are tight. Check the equipment for possible damage and replace worn-out parts.

Always secure the goal against tipping over and use the goal only for handball, indoor football and indoor hockey as it is designed for these sports.

We are happy to answer any questions you may have.
